

Freetime Usability Test Notes

- Homepage icons are awkward
- Tab navigator could be obfuscated by javascript loading banner
- Use the large icons on the homepage only if content is inside
- Homepage looks bland and uninteresting, not clear what to do from homepage
- "Something is missing"
- Entering freetime is slow -- can fix
- Login password can be null -- can fix
- Freetime entry is a bit slow. Could possibly be sped up/simplified by tapping either end of the freetime and having the middle fill in automatically. -- can fix
- Freetime slot text is a bit small
- One person had troubling finding the delete button with the icon
- Not obvious that time saved
- Hard to use by yourself
- Opened the app and said they didn't know what to do with it
